This marine remote-controlled LED searchlight features a stable, high-brightness light source and flexible 360° remote rotation, providing clear illumination up to a maximum range of 446 meters, ensuring safe navigation and marine operations at night. It meets the IP56 waterproof standard, making it suitable for harsh marine environments. The low-power LED light source enables long-lasting stable operation, and its lightweight design allows for easy installation on various types of vessels. Choosing this LED searchlight means selecting not only excellent lighting but also a reliable, all-weather marine companion.
