

ULTRA POWER

— INSPECTION LAMP —

GEN : (X) ✨ **C2-927X / C2-929X**
UP TO 950 LUMENS REINFORCED VERSION

The X series is built on the proven reliability of previous generations, with comprehensive upgrades in structure, durability, and real-world usability. Now enhanced with a high-output version delivering up to 950 lumens, providing stronger illumination when demanding

conditions require more. It's not a new product you have to relearn — it's the one you already trust, evolved.
